

F 50B

BATTERY POWERED FORWARD VIBRATORY PLATE

Easy to change battery pack

Emission free compaction of sand, gravel, rock fill and paving stones.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The Swepac F 50B is a 52 kg vibratory plate characterized by its compact, robust design, low main-tenance requirements and thus low operating costs.

- The machine is powered by a 1.0kWh Lithium-Ion battery and a 24V 600W DC motor. Since it is emission-free, the machine can be used in poorly ventilated areas, as well as indoors.
- Operating time exceeds one hour with a single battery.
- The F 50B is suitable for smaller jobs, such as modifying the subsurface for pavers. With a Vulkollan® plate (accessory) attached to the base, it can compact paved areas efficiently for an even surface.
- The machine can cope with the toughest of jobs since the entire machine protected is by a cover.
- The chassis and protection frame are hot-dip galvanized providing a superior corrosion protection and maintenance-free life.
- Easy to maintain and service – no air filter or engine oil changes. No handling of fuel.
- The excentric element has permanently lubricated bearings.
- The handle bar can easily be removed without any tools, for instance, for transportation.

TECHNICAL DATA – SWEPAC F 50B

Weight, net	52 kg
Base plate, width x length	300 x 500 mm
Height, max / min	1010 / 700 mm
Length, max / min	1125 / 565 mm
Motor	DC (battery)
Motor output	600 W
Type of Battery	Lithium-Ion
Voltage	24 V
Energy content	1.0 kWh
Centrifugal force	9 kN
Frequency	112 Hz

Working speed	0–25 m/min
Hand/arm vibrations HAV according to ISO 5349 on gravel surface	3.5 m/s ²
Guaranteed sound-power level, LwA	103 dB(A)
Sound pressure level (at operator's ear)	88 dB(A)

PART NUMBER

305500	F 50B incl battery and charger
--------	--------------------------------

ACCESSORIES

305525	Extra battery pack
305039	Vulkollan plate complete

Swepac is Sweden's leading manufacturer of soil compactors. The company has a wide range of products, with different motor options and a variety of sizes for every application. Swepac is certified for quality and environmental management under ISO 9001 and 14001, and our machines are Eurotest-certified by SMP Swedish Machinery Testing Institute. You will find detailed information about the company and our products on our website, www.swepac.com. We reserve the right to make changes in technical specifications without prior notice.
